Summary

Software Engineering student at San Jose State University with experience building full-stack applications and automated data pipelines. Led a 4-person team to ship a live web platform used by SJSU students. Skilled in Java, Python, and JavaScript with a strong foundation in data structures, algorithms, and object-oriented design. Seeking a software engineering internship to apply technical skills in a collaborative environment.

Education

San Jose State University

Bachelor of Science in Software Engineering GPA: 3.72

Jan 2025 – Dec 2028

San Jose, CA

– *Relevant Coursework:* Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems

Projects

CampusHub | *JavaScript, Node.js, Express, PostgreSQL, Google OAuth 2.0* (Live) (GitHub)

Jan 2026 – May 2026

- Led a team of 4 to design and ship a full-stack web platform for SJSU students to discover campus events, deals, and academic resources, deployed live on Netlify and Render.
- Architected a 3-tier system with a Node.js/Express REST API backend, PostgreSQL database, and vanilla JS frontend supporting full CRUD operations across event and review entities.
- Integrated Google OAuth 2.0 restricted to @sjsu.edu emails with JWT-based session handling and protected routes for role-based access control.
- Built an admin event lifecycle panel (pending/approved/rejected), a real-time reviews system, and Google Maps iframe integration for location-based event navigation.

Jobs Digest | *Python, SQLite, GitHub Actions, SMTP* (GitHub)

Jan 2026 – Feb 2026

- Created an automated job alert system scraping 100+ Google Jobs listings daily into a structured SQLite database.
- Implemented keyword-based filtering to reduce results to 12–16 targeted postings per digest, improving relevance.
- Eliminated duplicate listings using a database-tracked "seen" flag to ensure unique daily outputs.
- Automated daily execution via GitHub Actions CI/CD workflow scheduled at 10 AM.

Wordle Clone | *JavaScript, HTML, CSS, Vercel* (Live) (GitHub)

Feb 2026 – Mar 2026

- Deployed a browser-based Wordle game on Vercel with 6-attempt, 5-letter gameplay and full dictionary validation.
- Engineered real-time letter evaluation logic with sub-5 ms response time for instant feedback.
- Designed a responsive UI with animated tiles and a synced on-screen keyboard for consistent user experience.
- Validated user input against a complete dictionary, rejecting invalid guesses with immediate feedback.

Library Catalog System | *Java, OOP, Binary Search* (GitHub)

Apr 2025 – May 2025

- Designed a Java library system managing 80+ titles using OOP principles and a multi-level inheritance structure.
- Implemented binary search on ISBN and title indices to enable fast and efficient lookups.
- Refactored shared logic into abstract base classes, reducing code duplication by 25%.

Typing Speed Tester (WPM) | *Java*

Dec 2024 – Jan 2025

- Built a Java typing speed tester with real-time WPM calculation and precise timing.
- Delivered 92–98% accuracy across standardized test passages with buffered input validation and exception-safe timer logic.
- Reduced input handling errors by 20% through structured validation, ensuring zero runtime crashes across all test sessions.

Technical Skills

Languages: Java, Python, C++, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Node.js, Express.js, Selenium WebDriver, JavaFX, REST APIs, Google OAuth 2.0, SMTP

Developer Tools: Git/GitHub, VS Code, IntelliJ IDEA, Cursor, Vercel, Netlify, Render

Databases & Infrastructure: PostgreSQL, SQLite, Cloudinary, CI/CD (GitHub Actions), AI Automation

Extracurricular Activities

Toastmasters International — Online Chapter

Jan 2025 – May 2025

Active Member

Virtual

- Delivered 3+ prepared speeches and 10+ impromptu Table Topics exercises, building structured communication under pressure.
- Completed 15+ weekly sessions totaling 20+ hours of public speaking practice with positive evaluations from international peers.
- Held 2 facilitation roles (Evaluator, Timer), sharpening active listening, time management, and constructive feedback skills.
